

Scott E. Rubke

Technology and Aviation Division Chair, Glendale Community College

Scott Rubke has been with Glendale Community College since 1991. He is responsible for the oversight of a wide variety of career and technical education programs.

Scott holds FAA certificates for A&P Mechanic, Inspection Authorization and Advanced Ground Instructor. He also holds a Bachelor of Science degree in Business Administration—and has over 40 years of experience in the aviation industry.

In 2006 Scott Rubke became Technology and Aviation Division Chair at Glendale Community College. He is also active on various committees at the college including Master planning, Curriculum and Instruction, and Scholarship.

Scott is responsible for the curriculum approval and administration of the Verdugo Power Academy which is a great example of collaboration and stimulus money being successfully utilized. Funded through the federal stimulus package, this joint venture between Glendale Community College, Glendale Water and Power, and the Verdugo Workforce Board provides intensive training to students to prepare them to work in the utility industry.
