

The College of Engineering & Computer Science presents:

# Tuesdays @ Noon

## Brown Bag Research Seminar Series

Bring your lunch and listen to your colleagues speak about their research interests and exciting projects that they are working on. We are starting out with our newest faculty members who recently joined the college and plan to continue the series to provide opportunities for all faculty in our college to share their work.

**Join us in Jacaranda Hall - Conference Room JD 1568 from 12 - 1 p.m.**

<b>Oct. 9</b>		<b>Vibhav Durgesh</b> <i>Assistant Professor</i> <i>Mechanical Engineering</i>	<b>Renewable Energy - Wind and Water</b>
<b>Oct. 16</b>		<b>Emad El-Wakil</b> <i>Assistant Professor</i> <i>Construction Management</i>	<b>Construction Simulation</b>
<b>Nov. 6</b>		<b>Ehsan Shamel</b> <i>Assistant Professor</i> <i>Mechanical Engineering</i>	<b>Electromagnetic Sensing and its application in the pipelines and metals industry</b>
<b>Nov. 13</b>		<b>Kourosh Sedghisigarchi</b> <i>Assistant Professor</i> <i>Electrical Engineering</i>	<b>Control and Integration of inverter based alternative energy resources to the Future Grid</b>
<b>Nov. 27</b>		<b>Jimmy Gandhi</b> <i>Assistant Professor</i> <i>Engineering Management</i>	<b>An Analysis of understanding the risks associated with Global Outsourcing</b>
<b>Dec. 4</b>		<b>Adam Kaplan</b> <i>Assistant Professor</i> <i>Computer Science</i>	<b>Smart Parking: Intelligently Routing Drivers To Parking Lots</b>
<b>Dec. 11</b>		<b>Rais Ahmad</b> <i>Assistant Professor</i> <i>Civil Engineering</i>	<b>Guided wave techniques for underground structure inspection</b>
