

The College of Engineering & Computer Science presents:

Brown Bag Fall 2013 **Research Seminar Series** *@ 12:00 p.m*

Join us in Jacaranda Hall (JD) - from 12:00 - 1:00 p.m.
(Conference rooms listed below)*

Bring your lunch and listen to your colleagues speak about their research and teaching interests and exciting projects that they are working on. We are delighted to continue the series that premiered in fall 2012 with our newest faculty members to provide opportunities for all faculty in our college to share their work.

Tue. Sept. 10
JD 4508D

Dale Conner
Associate Professor
Manufacturing Systems
Engineering & Management

**Amorphous Non-stochastic Cellular Structures:
Processing and Properties**

Thu. Sept. 26
JD 4508D

Shahn timerzaei
Assistant Professor
Electrical & Computer
Engineering

**Image Processing Techniques on
Reconfigurable Hardware**

Mon. Oct. 21
JD 1568

Bruno Osorno
Professor
Electrical & Computer
Engineering

**Aspects of Smart Grid for Teaching and
Research**

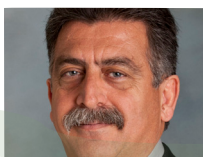

Mon. Nov. 4
JD 1568

Rais Ahmad
Assistant Professor
Civil Engineering and
Construction Management

**Guided Wave Application in Structural
Health Monitoring**

Tue. Nov. 12
JD 1568

Behzad Bavarian
Professor
Manufacturing Systems
Engineering & Management

**Polymer Protective Barriers for Improved
Implantable Glucose Sensor Life**

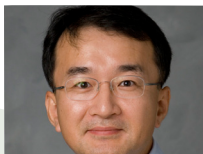

Mon. Nov. 18
JD 1568

C. T. Lin
Professor
Mechanical Engineering

Development of an Intelligent Wheelchair

Tue. Dec. 3
JD 1568

George Wang
Associate Professor
Computer Science

Big Data - Trends and Technologies

***Note:** The first two presentations will be held in JD 4508D (4th Floor),
all other presentations will be held in JD 1568 (1st Floor)

Fall 2013
