# 4. Complete the following

   a. (10 pts) Draw a flowchart to find the minimum of three integers a, b and c

   b. **(5 pts) Write a single Java statement, or a set of statements, that corresponds to your flowchart.**

```
if (a <= b)
{
    if (b < c) return a;
    else if (a < c) return a;
    else return c;
}
else
{
    if (a < c) return b;
    else if (a < c) return b;
    else return c;
}
```
