

EMSA FIRST SEMINAR

BY DR. BRIAN WHITE ON SEPTEMBER 12, 2012

A Personal History of Engineering Management Efforts

SEMINAR DESCRIPTION:

Dr. White will draw upon his 50 years of personal experience in helping to develop computer, communication, and networking systems, and applying systems engineering techniques. He will describe, characterize, and evaluate the engineering management theory and practice associated with each system example presented. The workshop will include a class exercise concerning a hypothetical engineering management problem to elicit from participants current illustrations and augmentations of the principles espoused.

SEMINAR INFORMATION:

Date: September 12, 2012

Time: 7:00pm-9:00pm

Location: CR Johnson Auditorium

Cost: Free

Organized by:

Engineering Management Student Association (EMSA)

Brian E. White received Ph.D. and M.S. degrees in Computer Sciences from the University of Wisconsin, and S.M. and S.B. degrees in Electrical Engineering from M.I.T. He served in the United States Air Force, and for 8 years was at M.I.T. Lincoln Laboratory. For 5 years Dr. White was a principal engineering manager at Signatron, Inc. In his 28 years at The MITRE Corporation, he held a variety of senior professional staff and project/resource management positions. He was Director of MITRE's Systems Engineering Process Office, 2003-2009. Dr. White left MITRE in July, 2010, to offer a consulting service, CAU.
