

Simpler Choice form (If and Else and Endif; but with no Elselfs)

Semantics  
(meaning)

Syntax  
(form)

```
-- Simple If form
-- with no Else part
```

```

If expression then
    instructions
EndIf
  
```

```
-- Simple If-Else form
-- with Else part (no Elself)
```

```

If expression then
    instructions
Else
    instructions
EndIf
  
```

```
-- Example of If form
-- Warning of low score
```

```

If (score < 50) then
    Outputln "Low "
EndIf
  
```

```
-- Example of If-Else form
-- Price depends on quantity
```

```

If (quantity <= 6) then
    Set price = 99
Else
    Set price = 95
EndIf
  
```
