Be a member of SITE!!!

Be part of an interdisciplinary team working on a regionally relevant project requiring science, engineering and math skills

SITE 2015: June 1 to June 19

SITE is a Summer Interdisciplinary Team Experience for CSUN majors in chemistry, geology, physics, math, engineering and computer science. Teams will engage in projects relevant to energy generation and conservation, robotics, and water conservation.

Students who complete the program will receive a $1,000 stipend and be eligible for priority registration for Fall 2015.

Application Deadline: April 15, 2015

For more information, eligibility requirements, and online application, visit http://www.ecs.csun.edu/steps/
