

Welcome to AIMS²(HSI-STEM Grant)- Meeting # 91

Dec 10, 2020, 1 PM – 2:30 PM

AGENDA

- Welcome and Information Items – Ramesh
- Meetings calendar for spring 2021
- Articulation 101 – Aram Khachatourians
- Individual Student Progress/Group Reports (fall 2020) – Review of templates and timelines
- AIMS2 student recognition (Nomination process and timelines)
- Celebrating the life and legacy of Dean Rick Ratcliffe

AIMS² VIRTUAL OPEN HOUSE

You are invited to the AIMS² Virtual Open House. Please use the link below to take a virtual tour of our labs in the College of Engineering and Computer Science. Then, join us on **December 3rd from 2:00PM-3:00PM** for a live session including an overview of our program and a discussion with Peer Mentors in our program.

Virtual Lab Tour:

CSU HSI-STEM Research, Policy, and Practice Dissemination Series

“The Times They Are a Changin’”: Adapting for Success in Rapidly Changing Times

The AIMS² program at California State University, Northridge (CSUN) supported by the U.S. Department of Education, HSI-STEM Division, is now completing a decade of success. Recognized as the 2019 Example of Excellence in the baccalaureate program category, this collaborative multi-institutional program led by faculty and staff from CSUN and partner community colleges uses a cohort-based model and high impact practices such as peer mentoring and student participation in research to improve retention, graduation, and student success.

Challenges from the global pandemic meant that the program had to transition very quickly to virtual modalities. How did the program adapt to serve students in these rapidly changing times? In this webinar, you will hear perspectives from a panel that includes program faculty and staff from CSUN and the College of Canyons, and a peer mentor who is also a student in the cohort. Everything from teaching and learning online, to student support and tutoring, virtual open house with tour of labs, and a vibrant 100% online “virtual” research program. In addition, panelists will share a few tips for success based on their experiences.

The Center for Evaluation and Educational Effectiveness (CEE) at California State University, Long Beach (CSULB) is part of a partnership that involves 10 California State University campuses working together to learn how to best support the success of first-generation, low-income, and/or Hispanic students in STEM at Hispanic-Serving Institutions (HSIs). This webinar is part of a series of webinars and briefs dedicated to this endeavor. For more information on the project, please visit: <http://www.csulb.edu/hsi-stem-lessons-learned>.

Aram's *Best Practices to Successful Articulation Efforts with CSUN's Mechanical Engineering Department:*

- **Goal:**

- Help our community college partners in a first time through effort/exercise

- **Why?**

- Recent experience with a request to articulate “ENGR M07” with CSUN’s ME286 class

- **Recommendation:**

- Do it using “**Beth's Way**”
 - Start from the “**End**” and work your way to the “Beginning”
 1. Get a hold of the course coordinator from CSUN, request a copy of syllabus, and catalog description
 2. Have a meeting (phone, in person, Zoom, etc.) with the course coordinator to completely understand the expectations *[What are the design requirements?]*

- **DO NOT CHANGE anything once course is approved!!!!** *[the story]*
