Webinar Series

-Success with collaboration and leveraging of resources across departments, institutions, and communities

-Academic/Student Support Programs

- HSI Partnerships: Beyond the articulation agreement, what are you doing to cultivate a strong relationship that benefits the institution and the student?

-Peer mentorship programs at the faculty and/or student level

-Authentic Undergraduate Experience: A Program Director facilitated panel of students who discuss what an Authentic Research Experience looks like.

Webinar Series (contd..)

Also, I received inquiries for presentations on using data to improve STEM success of Latina/o students. Is there an academic who works in this area and has published that can speak to what the current data say about Latina/o student success? If there isn't anyone in the HSI STEM grantee cohort, then I welcome your recommendations for an outside speaker that I could bring in to speak on this topic.

If you volunteered to present in the webinar series, then I'll reach out to you after February 15 to discuss dates and webinar logistics. So stay tuned!
