AGENDA

- Moorpark College – Scarlet Relle
 - We will be recruiting new students into our cohort;
 - I am holding a pre-semester math review sessions for our Statics and Strength of Materials course next Wednesday and Thursday (there are some AIMS students in the course – so this will be for everyone)
 - We are expanding our engineering program by offering Certificates of Achievement in CAD and Mechatronics engineering. This summer I finished creating 3 new courses for the CAD Certificate, currently I am in the process of writing a new course in Electronics for the Mechatronics Certificate. We are hoping to get all these new courses certified this Fall. These certifications, we are hoping, will provide another avenue for all students – AIMS and otherwise – to be able to get high wage jobs or internships while going to school.
 - We are also happy to report that we hired one of your adjunct faculty, Jenny Li, as a full-time professor at Moorpark! Next week I will be meeting with her to help her get up to speed, but she is starting with us now full time.
