

The AIMS² Program

California State University
Northridge

*S. K. Ramesh
Dean
College of Engineering and Computer Science*

Outline

- Overview of CSUN
- What is the AIMS² program?
- Goals and Objectives
- Project Activities
- Work in progress

- **CAMPUS SIZE:** 356 acres
- **FACILITIES:** Over 100 buildings totaling nearly 4 million square feet
- **ENROLLMENT:** 37,000 +
- **Annual Economic Impact of approximately \$ 700 Million**
- **CSUN provides 5,800 jobs on campus and the University's economic activity creates an additional 5,700 to 6,000 jobs in the local economy**
- **CSUN is a major producer of basic and applied research averaging over \$ 25 million in external grants annually**

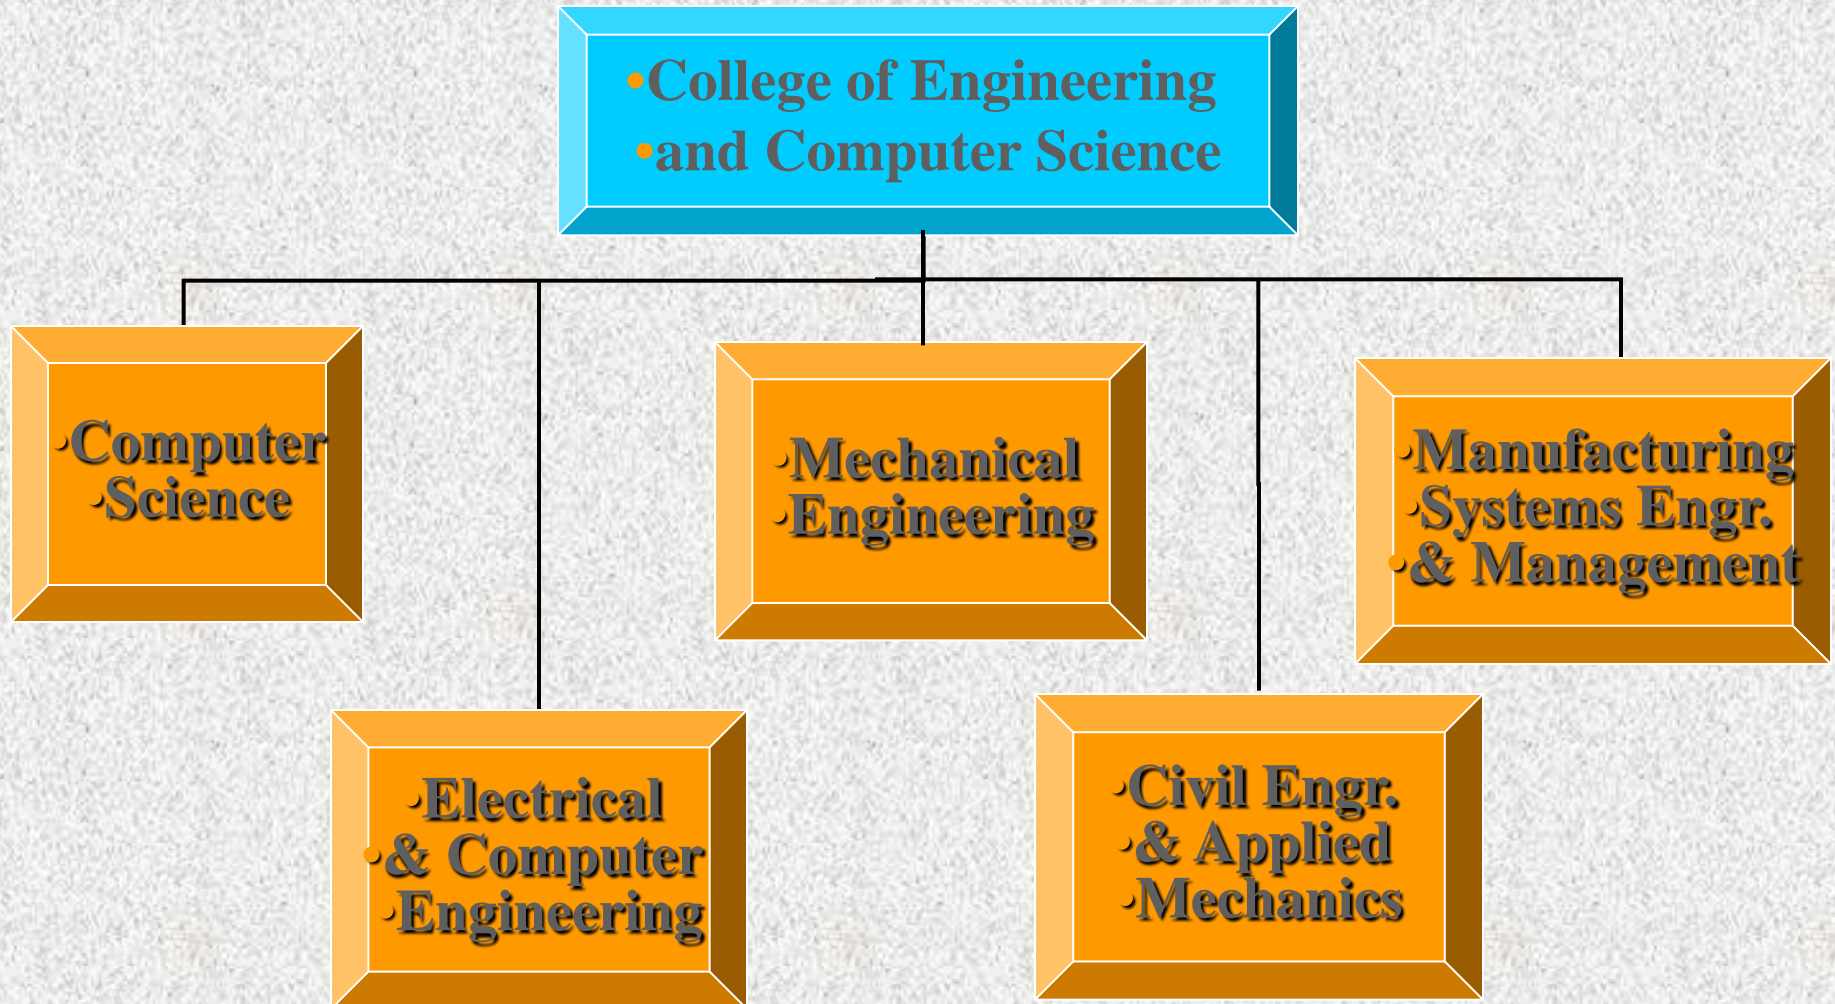

Background Information

- Engineering & Computer Science at CSUN
 - Approx. 3200 students (2500 undergraduate)
 - Five EAC ABET accredited Programs in Engineering and a CAC ABET accredited Program in Computer Science (all undergraduate)
 - ACCE accredited Program in Construction Management Technology Program (undergraduate)
 - New BS degree programs in Engineering Management and Computer Information technology
 - New Masters degree program in Assistive Technology Engineering
- College-Based Centers
 - Ernie Schaeffer Center for Entrepreneurship and Innovation
 - Center for Research and Services
 - Energy Research Center

Organization

Department of Education Grant

CSUN Receives \$5.5 Million Federal Grant to Increase Number of Minorities Studying in Engineering, Computer Science

<http://blogs.csun.edu/news/2011/10/engineering-grant/>

The [San Fernando Valley Business Journal](#) (10/6) reports, "California State University, Northridge has received a five-year, \$5.5 million" HSI STEM grant "to increase underrepresented and low-income students in engineering, science and math." The piece notes that the goal of the ED HSI STEM Program is to "help students transfer from area community colleges and then graduate from CSUN with degrees in engineering or computer science."

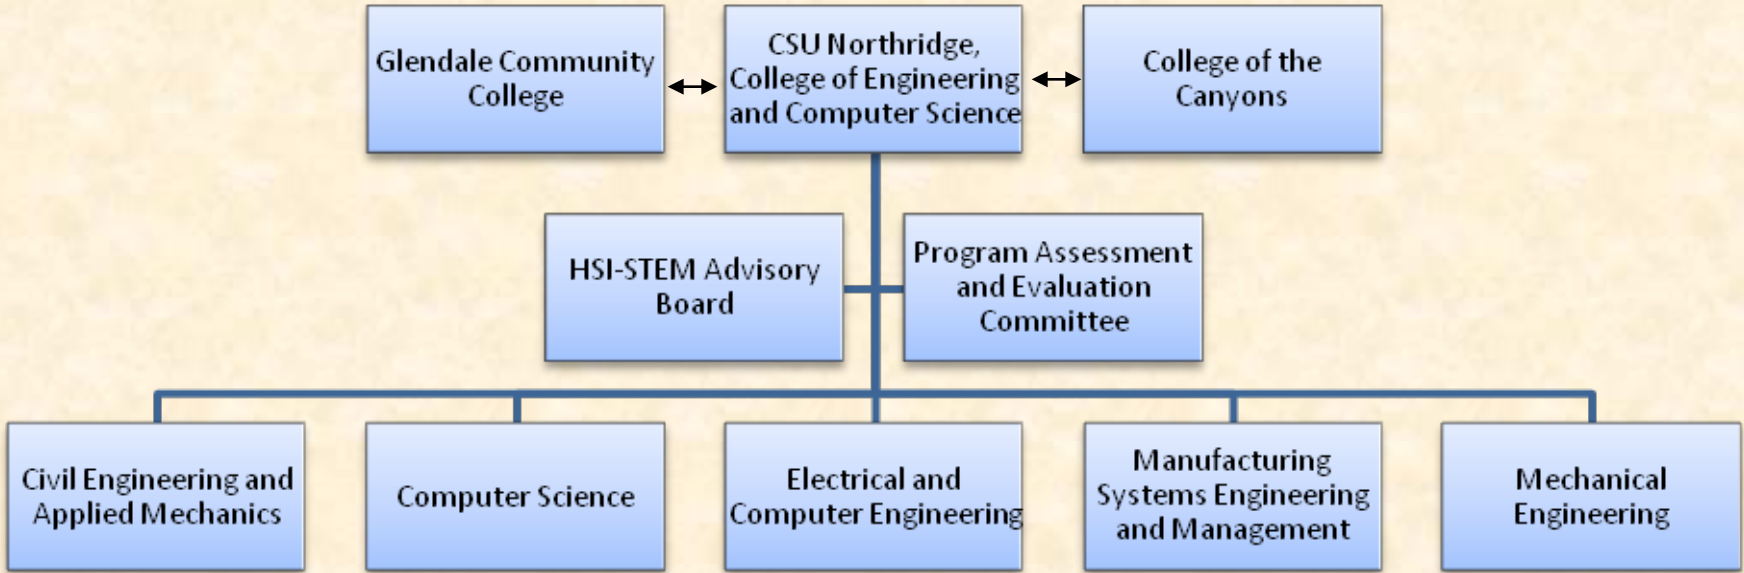

Cal State Northridge, Harbor College Awarded Federal Science, Tech Grants.

The [Los Angeles Times](#) (10/4, Rivera) "LA Now" blog reported, "Cal State Northridge received \$5.5 million from the Department of Education's Hispanic-Serving Institutions STEM program to boost the number of students who transfer from a community college and graduate with degrees in engineering and computer science." CSUN "will work with Glendale Community College and College of the Canyons in Santa Clarita to identify potential students who will receive tutoring, mentoring, research opportunities, career advice and stipends to help pay education costs. Faculty from the three institutions will also collaborate on curriculum." The Times reported

AIMS²

Attract, Inspire, Mentor and Support Students

The CSUN 2011 Cohort

The Project PI and Co-PI's

- **Cal State Northridge**

Ali Amini, Behzad Bavarian, Nazaret Dermendjian, Gloria Melara, Hamid Johari, Nagwa Bekir, Nathan Durdella, Karla Pelletier and S. K. Ramesh (P.I.)

- **Glendale CC**

Kristin Bruno, Scott Rubke, Jan Swinton, and Richard Cortes

- **College of the Canyons**

David Martinez and Susan Crowther

Goals and Objectives

- To increase the number of Hispanic and low-income students who successfully transfer from Glendale Community College (GCC), and College of the Canyons (COC) to California State University, Northridge, to pursue majors in Engineering and/or Computer Science.
- To increase the number of Hispanic and low-income students who join CSUN as upper division transfer students and graduate with degrees from one of the undergraduate programs in the College of Engineering and Computer Science.
- To develop a model, seamless and sustainable transfer program to assist Hispanic and low-income students to successfully transfer from GCC and COC to California State University, Northridge where they will complete their studies in Engineering and/or Computer Science.

Minority Student Enrollments in CECS

New Undergraduate Minority Student Enrollments

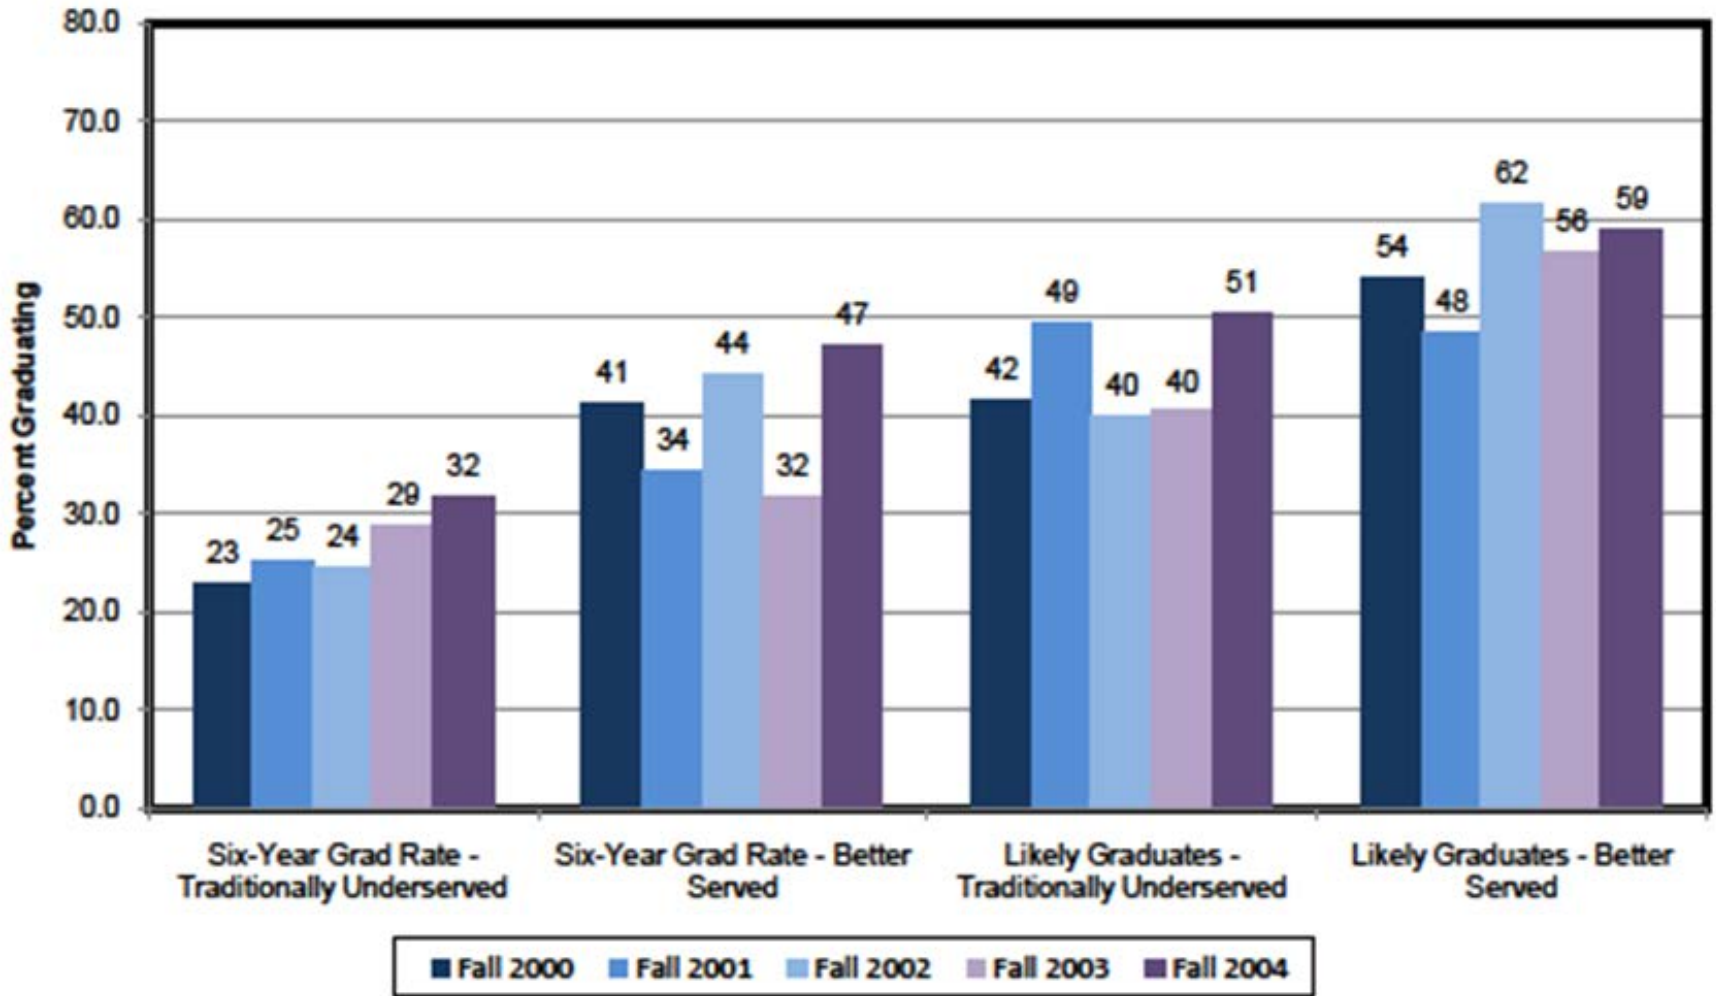

Minority Enrollments as % of CECS undergraduates

% of New Undergraduate Minority Student Enrollments

Project Activities

- Tutoring to improve student performance in preparatory Math and Science courses.
- Advising and tracking of students in cohort
- Work closely with faculty and staff in feeder community colleges to develop seamless articulation agreements, especially for students transferring from 2 year colleges to CSUN.
- Create a mobile digital environment with Tablet PCs and appropriate software, so that the project team can work with the cohorts to enhance communication, engagement, collaboration and creativity, and instant learning assessment.
- Expand Facilitated Academic Workshops (FAW) in required introductory courses and key upper division courses offered by the college's programs
- Faculty/Peer mentoring and career advising of students in the cohort
- College wide events focused on careers and jobs such as the biannual Tech Fest events held in February and September.
- Provide students with opportunities to work on hands-on projects and research activities that encourage them to stay connected with their majors

Hands-on Project Based Learning

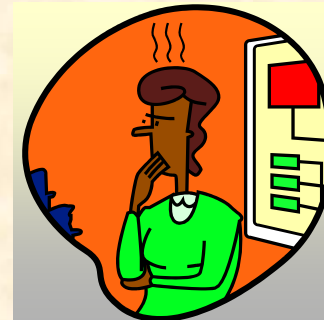

• *Design Clinics*

What Is It?

- A program to bring industry, students, and faculty together into the classroom
- Sponsors present problems
 - Product development
 - Technology insertion
 - Trade study
- College presents design clinic proposal
 - Faculty contact
 - Solution ideas
 - Schedule and budget

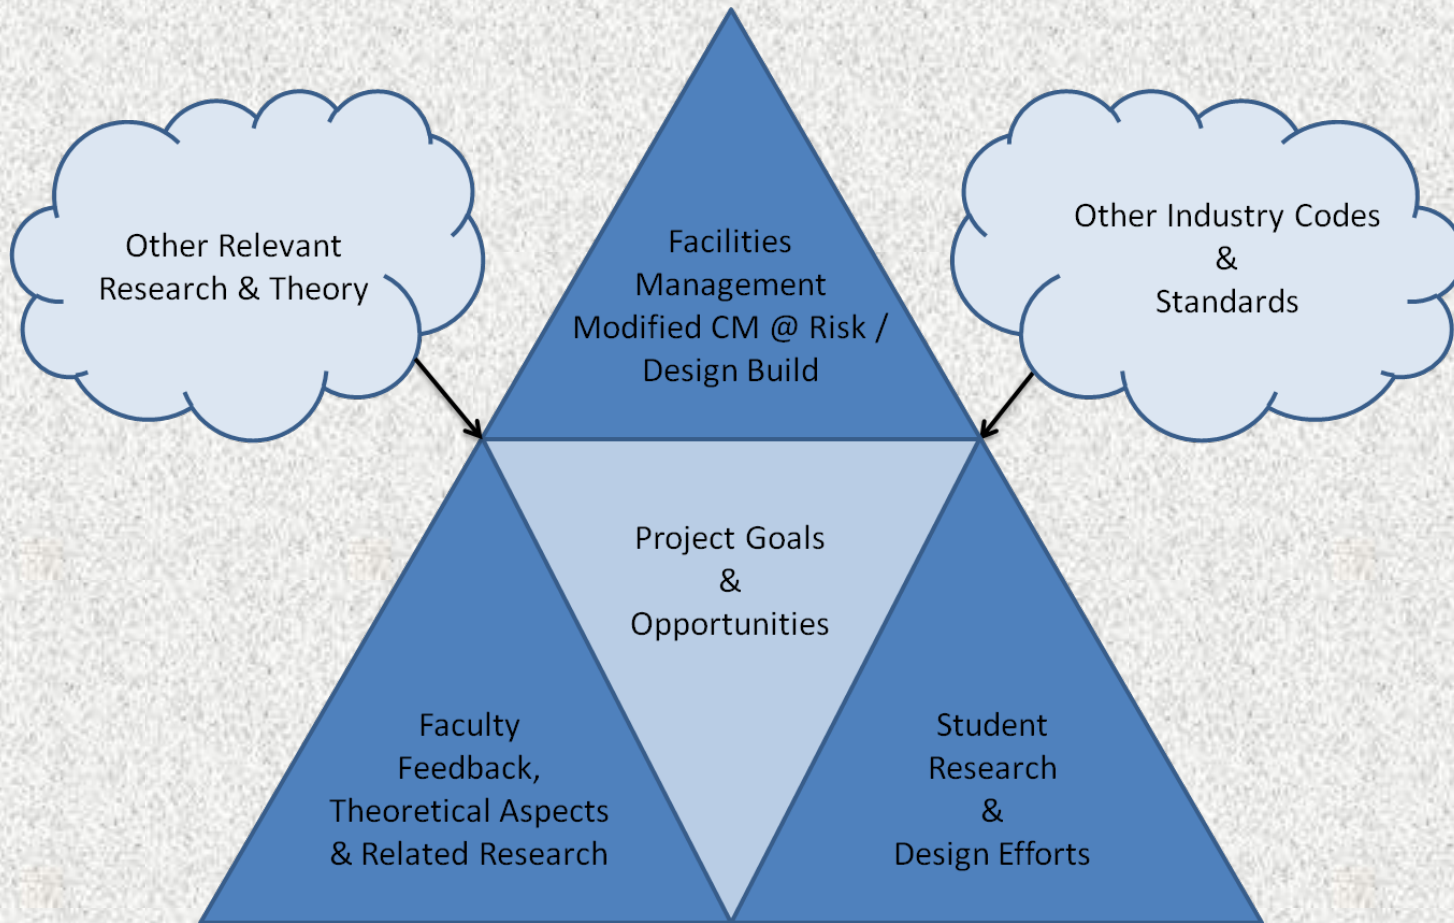

A Win-win Program

- Adds fun and excitement to the curriculum
- Students love to tackle real-world engineering projects sponsored by industry and government
- Students often create innovative designs, develop new processes that benefit the sponsors

STUDENT DESIGN TEAM MODEL

• SHPE National Design Competition-October 2011

• **First Place:** "Bench Press Power Generator" Team Members: Andres Lopez, Jonathan GJemso, Evangelina Garcia and Michael Marchesian

• *Faculty Advisors: Prof. Stewart Prince and Prof. Preminger*

• **Second Place:** "Powered Footwear" Team Members: Ana Avelar, Eliud Munguia, Melissa Martinez

• *Faculty Advisors: Profs. Sharlene Katz and James Flynn*

AHETEMS/SHPE National Design Competition

Oct 28-31, 2009

First Place Winners

“Floating Cabinet Design”

\$ 3,000

Team Members: *Eduardo Ekmekgian,*
Mario Servin, Maurycy Sarosiek

SHPE Team Advisor: Hector Perez

SHPE Faculty Advisor: Prof. Shraibati

Faculty Advisors: Profs. Robert Ryan,
Mike Kabo, CT Lin

Tech Fest – Biannual Event

- Typically 35-40 companies attend
- Information Sessions (Fall 11-Spring 12)
 - JPL, INTEL, Google, Sysmind, Boston Scientific, Well Point, NAVAIR, Southern California Gas Company
- Employer Feedback

Projects Showcase event !!! April 20, 2012

From the Principal Investigator's Desk

"As we look to the future, we can think of no greater investment than the education of our future engineers and computer scientists. This grant will have an enduring impact on the academic success and career choices of the talented youth in our region, and ultimately, we hope an enduring impact on the growth and health of California's economy. As these talented students, who represent both minorities and females, matriculate to the university, they will, in turn, serve as role models for others in their communities. This collaborative partnership between CSUN, GCC and COC will be instrumental in creating a larger, more inclusive pool of STEM graduates."
