**By now everyone should have connected with the students in your respective groups for fall 2020. In addition to your continuing students we are interested in hearing from you about the new students from Cohort 5 and any challenges they are facing. In particular see the list of [tutors](#) on our website and let us know if there are any gaps that need to be addressed. Please review the [rosters](#) for your respective groups and be prepared to update us on your plans for supporting cohort students “virtually” through the end of the semester.*
